Good day, Raphael.

We are organizing DevFest Enugu, the leading community-driven tech event in the state, taking place on the 5th and 6th of December.

DevFest is part of the global Google Developer Groups event series. In Enugu, it has grown into the largest annual gathering of developers, designers, tech enthusiasts, startups and ecosystem builders. Last year, we hosted more than 800 attendees.

Given your work with Derayah Capital Markets, your contributions to conversations around the gig economy, we would be honored to invite you to join a panel session as a speaker.

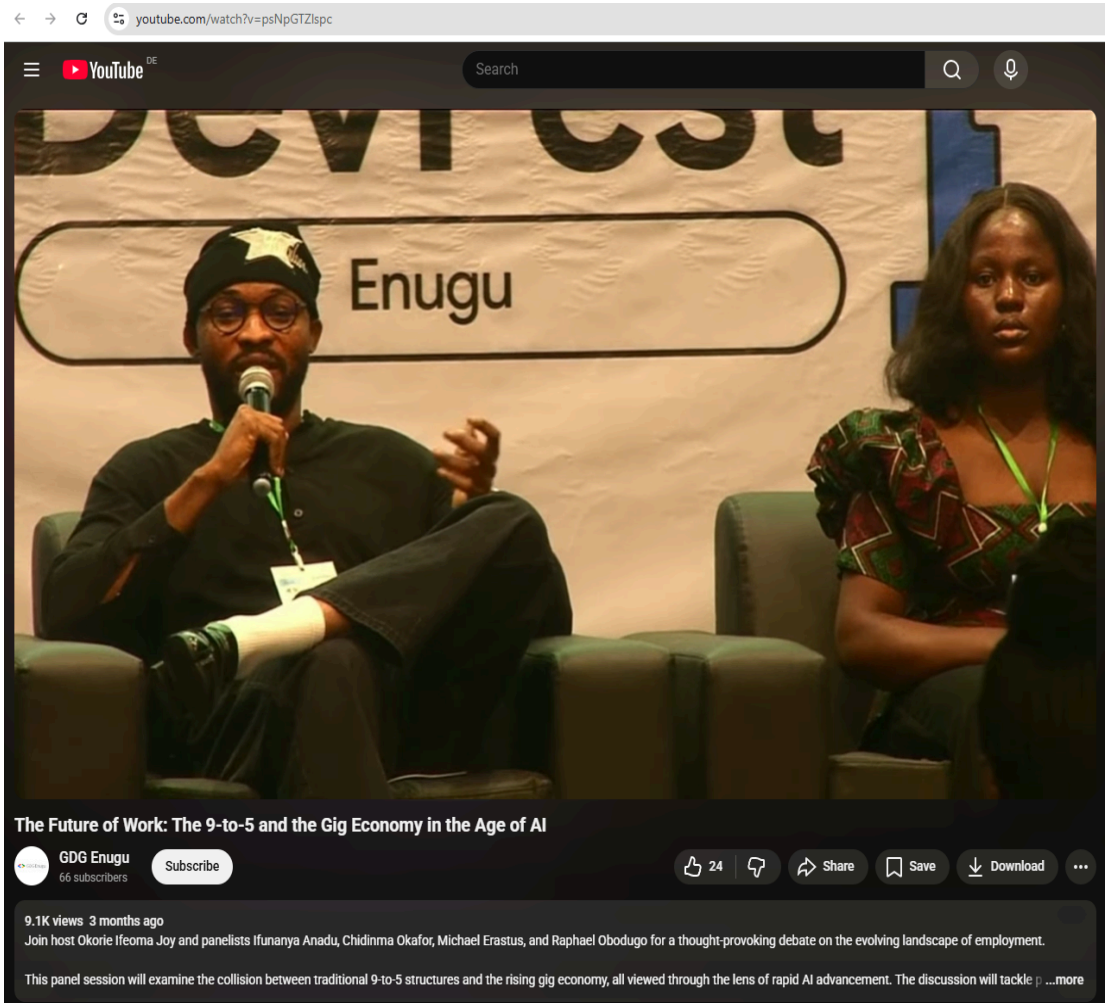

Panel Title: The Future of Work, The 9-5 and The Gig Economy in the Age of AI
Focus: Exploring how emerging technologies are reshaping traditional employment and expanding gig opportunities
Time: 6 December

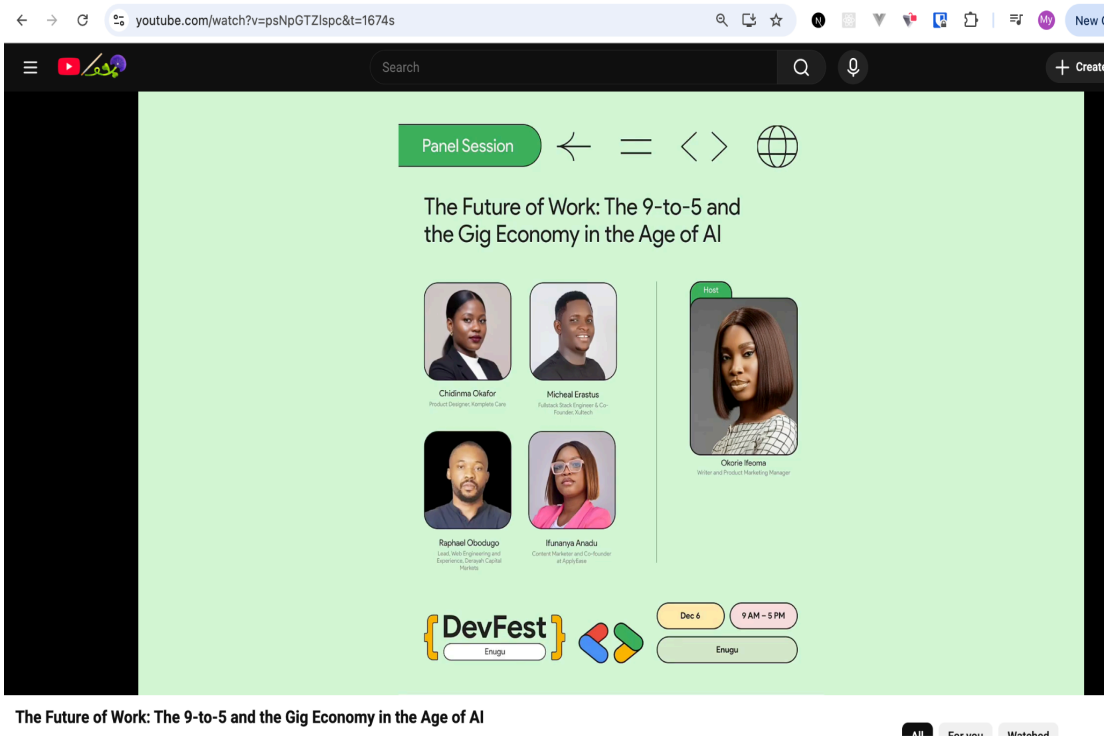

Your insights on the gig economy and the evolving nature of work would be invaluable to our audience.

If you are able to join us, kindly share a professional portrait photo (no selfies or candid shots) along with a short speaker bio for our publicity materials. Please let us know if you are interested in joining the panel, and we will be happy to provide any additional details you may need.

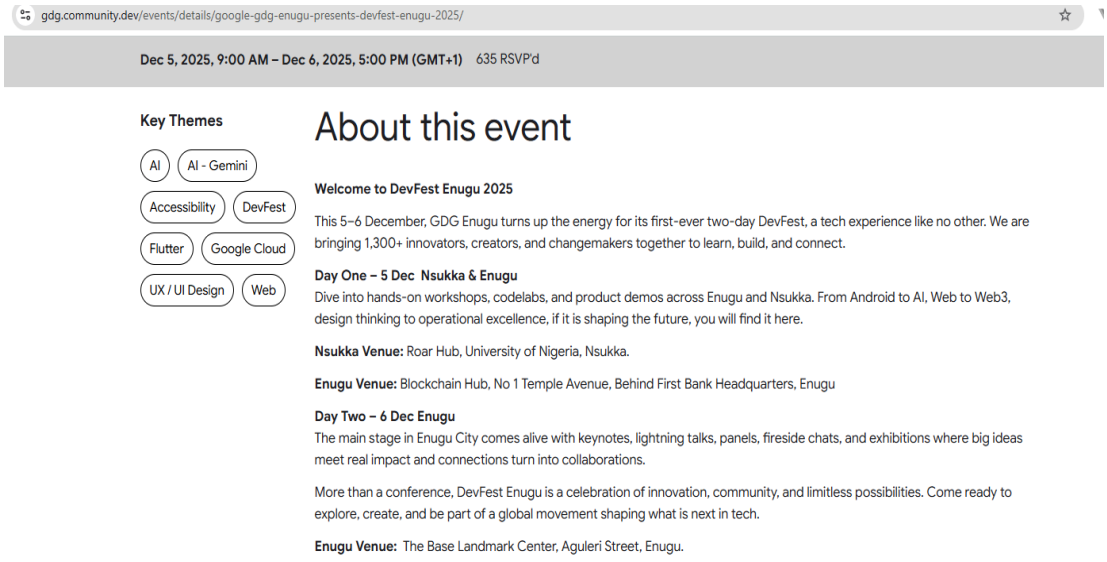

Thank you for your consideration.

Best regards,
GDG Enugu
